Subject: RE: Formal Notice issued in FERC CP15-93-000,et al. - ROVER DEIS - where is EPA Region 5's hardcopy?

Good morning Virginia,

I am confirming for you that I just placed your hardcopy of the **Rover DEIS and CDs** in outgoing mail to your office. I am confirming for you that it was placed in outgoing **UPS Next Day Air** to your office and I am confirming for you that the address used was that provided by you below **including the mail code**. At this moment a tracking number HAS NOT been created. I have requested the tracking number and will provide it to you as soon as I receive it. I suspect that I may not receive the tracking number immediately, and that given the priority status of the shipping you may receive the box before I get the tracking number. I hope this does not cause an inconvenience for you as I understand you specifically would like the tracking number.

Kevin Bowman

Kevin, Did you send the DEIS? What address did you use? Which company did you use? What is the tracking number? Thank you.

I'm sorry we're having so much trouble with the hardcopies. I will overnight another box tomorrow first thing. Can you confirm the address you want it at so that I can eliminate one last variable?

Hi Kevin, Sorry to bother you. However, EPA Region 5 has not yet received a hardcopy of FERC's DEIS for the Rover Project/Panhandle Backhaul Project/Trunkline Backhaul Project (a.k.a., Rover DEIS). When may EPA Region 5 expect to receive the hardcopy of the Rover DEIS that Region 5 requested? Please advise. Thank you. Virginia

All 15,000 copies were boxed and mailed to federal agencies, stakeholders, and the commenting public via first class USPS in accordance with ours and CEQ regulations. Additionally, electronic copies were filed with the EPA to the EPA's central data exchange website for EPA's notifications in next weeks federal register. Please advise me if any of your copies arrive damaged or you receive the incorrect number.

Hope you are well,

Kevin
